[pooreisam@tbzmed.ac.ir](mailto:pooreisam@tbzmed.ac.ir)

Masoud Poureisa was born in Iran-Tabriz on 16th October 1961 and received his medical diploma and Radiology Subspecialty from Tabriz University of Medical Sciences on 1996 and 1999 respectively. He was overachiever of 37th Iranian Board of Medical Specialization with top scores. His thesis was Correlation of Radiologic Signs with Pathologic Types of Esophageal Cancers. His supervisor was Professor Said Rad M.D. He started his academic work from 1999 in Tabriz University of Medical Sciences, Faculty of Medicine as radiology and ultrasonography instructor for radiology residents, medical and paramedical students. From 1992, he started CT scan courses at Tabriz University of Medical Sciences. He has received as an Observer Fellowship in the M.R. Imaging Section of the Department of Diagnostic Radiology at the Montreal General Hospital, McGill University, for the period September 10 to December 9, 1998. He continues his academic work at M.R.I section as instructor of physic and clinical M.R.I. for radiology residents and M.R.I. Observer Fellowships. He is chosen as a top instructor of paramedical and medical faculties for several times. Now he is associate professor of Tabriz University of Medical sciences.

**Presentations:**

M. Poureisa, S. Rad; Correlation of Radiologic signs with Pathologic Types of Esophageal Cancers. The Iranian Regional Congress on Prevalent Cancers, Tabriz 1988:27.

M. Poureisa; Ultrasonographic evaluation of 40 anomalous fetuses. Iranian congress of obstetric and gynecology , Tabriz 1993: 32.

M. Poureisa; Ultrasonographic evaluation of anomalous fetuses.12th Iranian Radiological Congress& post Graduate Course, Tehran 1995 :24

M. poureisa, A. Mostofynia; Ultrasonography for evaluation of bile ducts dilatations. 14th Annual Radiology Congress, Tehran 1996: 118.

M.Poureisa ; The role BHCG and ultrasonography at ectopic pregnancy. Annual Radiology Congress,Tehran 1997

M. Poureisa; Ultrasonographic evaluation of face anomalies at 22000 fetuses.6th Annual

congress of obstetric and gynecology, Tehran 1998:45-46.

M. Poureisa; The Role of Ultrasonography at genetic diseases. 4th International Congress of obstetric and gynecology, Tehran 1999:35-37

M. Poureia;The Effect of Fetus Audio Stimulation at The Length of Biophysical Profile Score.4th Congress of Obstetric and gynecology, Tehran 1999.

M.Poureisa; ultrasonographic evaluation of encephaloceles and its associate anomalies. Annual Radiology Congress , Tehran 1999

M. Poureisa;Ethical and Legal issues of ultrasonography and radiology at Obstetric and gynecology. conferences of legal issues at obstetric and gynecology , Tabriz 2000

M. Poureisa; prenatal diagnoses of fetal anomalies by ultrasonography. Genetic seminar ,Aasfahan 2001

M. Poureisa , Soheila Refahi; Ultrasonographic evaluation of 22045 fetuses for determination of anencephaly and its associate anomalies.17th Annual Radiology Congress, Tehran 2000:104.

M. Poureisa;The role of M.R.I. at lower limb trauma. Orthopedic group conferences , Tabriz 2001.

M. Poureisa; The Role of M.R.I. at Spinal Canal Tumors.Local Seminar of Radiology , Tabriz 2002.

M. Poureisa ;The role of C.T. scan at staging of esophagus and stomach cancers. Conferences of gastrointestinal cancers,Tabriz 2004.

M. Poureisa ;Imaging of renal tumors. Conferences of renal Tumors, Tabriz 2004.

M. Poureisa ; Ultrasonographic evaluation of skeletal anomalies. First annual symposium of ultrasonography at obstetric and gynecology, Tehran 2005.

M. Poureisa; An introduction to C.T. scan for Radiology Technicians. Local Symposium of Radiology, Tabriz 2006

M.Poureisa; M.R.I. Findings of multiple sclerosis.2th Local Symposium of Multiple Sclerosis, Tabriz 2008:17-18

**ADMINISTRAION:**

Head of Radiology Department, Para medicine Faculty since 1372.

Head of M.R.I section since 1378.

Member of research committee of medicine faculty.

Member of prevention of congenital anomalies committee.
